

Have you seen this swirl? This is the logo of the Credit Union Service Network. It means, if you see this logo displayed at a credit union in Phoenix or Dallas or wherever, you can walk into that credit union and do a transaction as if you are walking into a First Class Credit Union branch! Really! This is our response to large banks saying, “Well, we have a billion branches, that’s why we charge you so many fees and don’t give you interest on your checking accounts.”

Think about it. A credit union dedicated to postal employees with over 3200 locations nationwide with even more FREE ATMs nationwide. Tell your co-workers, friends, and neighbors! First Class Credit union is here to serve you wherever you might be! If you need to look up certain locations, try www.cuservicecenter.com or just go to the First Class Credit Union website and click on “Shared Branching.”

We’re so glad you’re here,

Mike Anderson, Marketing Director
